Mission Statement

Community Corrections Programs were created to divert felony offenders from the Tennessee Prison system and to provide necessary supervision and services to the offenders with the goal of reducing the probability of continued criminal behavior while maintaining the safety of the community.

In 1985, the State of Tennessee special legislative session created the program to reduce prison overcrowding. Community Corrections offers local courts increased options, assists victims, provides public services to local governments and is cost effective.

Through the Community Corrections Programs, taxpayers avoid paying the high costs of jail or prison for non-violent offenders. Average costs is less than \$4.00 a day for Community Corrections Supervision Programs.

Community Corrections Programs state-wide have a successful termination rate of over 50% and a less than 10% recidivism rate.
